Design Practices: User-Centered Design, Usability Principles, Information Architecture, Component Design, Design Handoff

Frontend Knowledge: HTML, CSS

EXPERIENCE

UI/UX Designer • Vtech Agency

2022 - 2023

Remote

- Created wireframes, prototypes, and high-fidelity UI designs using Figma and modern design principles.
- Developed scalable design systems with reusable components to improve consistency across products.
- Collaborated with developers and stakeholders to translate business requirements into intuitive user experiences.
- Improved user flows by simplifying complex workflows and enhancing usability across different platforms.

SELECTED PROJECTS

SaaS Analytics Dashboard • Figma

- Designed a responsive web dashboard that transforms complex business data into clear and actionable insights. Focused on information architecture, data visualization, user flows, and creating a scalable UI system.

Hash Resume • Figma

- Designed a modern creative Resume Builder experience combining visual and interactive web experiences.
